SECTION B: Event report and reflection

Event objective

The lecture aimed to give insights to the students on how an internationally acclaimed practice like Zaha Hadid Architects, helped taking parametric design beyond its experimental roots to make an impact on a larger scale encompassing all design disciplines from architecture to urban design and to fashion.

Event Description

School of Architecture and Planning (SAP) organised a Guest Lecture on Parametric Design by SUBHARTHI GUHA. The title of the lecture is "Beyond the Rationale". Mr. Guha is an Architect and Urban Planner, with an experience of design across 15 countries and over 30 projects. He founded the innovative practice concept SG in 2006 and works as a Lead Designer at Zaha Hadid Architects. The lecture will be followed by an interaction with the audience.

Mr. Guha shared his personal experience on winning competitions and executing projects of varied scales at ZHA. In the second part of his interaction, Mr. Guha showed us projects executed in India under conceptSG which included renovation of Kali Badi, Mandir Marg, Delhi and Fern Hotel, Agra. He shared how good engineering support and a detailed design can win over the client's trust to execute what would have seemed beyond the rationale in the first place. The lecture was followed by an interaction with the audience where faculty as well as students asked questions regarding practice at ZHA after Zaha passed away in 2016 and also about his advise to students at Sharda who are at the nascent stage of experimenting with parametricism with much vigour and curiosity.
