REC

Conclusion

As a result of many upcoming colleges of nursing that are promoting graduate and post-graduate courses in nursing, the shortage of nurse educator is overcome to great extent.

Now, there is the need for having qualified nursing personnel in administration and research who can further promote growth of nursing education at in-service.

Preparation of nursing personnel should be of good quality. So, this is the high time to prepare a quality index of nursing institutions all over the country by categorizing them into different grades, based on infrastructure and faculty profile.
