***SECTION B: Event report and reflection***

Event objectives:

**Objectives of the Event:** This seminar will help to understand the following aspects;

1. To impart the awareness about Research Methodology.
2. To provide a platform to all the researchers and students so that they can convert their ideas, hypothesis and queries into a successful research protocol.

Event description:

Research unlocks the unknowns, lets you explore the world from different perspectives, and fuels a deeper understanding. Research is the process of discovering and creating new knowledge. Research can be done on any topic, be it medical, non-medical, IT, or anything else. In order to do research, first of all, you need to have a topic or the problem on which you can do research. The topic must have relevant questions to answer. Research is the building block for civilization and development. Therefore, it is essential to know what, why and how of research. One must know different steps involved in research. All these aspects will be discussed in two days' lectures.

Seminar on Research Methodology was conducted by School of Allied Health Sciences (SAHS), Sharda University on 28-09-2021 and 29-09-2021 at 03:00 pm. Prof (Dr) Sally Lukose, (Dean SAHS) was the convener, and Dr Rahul Saxena (Professor) and Dr Suyash Saxena (Asstt. Professor), Dept. of Biochemistry, SAHS) were the organizing secretary of this webinar. The speaker was **Prof. N.B. Singh, Professor Emertius**, Department of Chemistry and Biochemistry and Research Development Cell, Sharda University, Greater Noida, Uttar Pradesh.

Seminar on Research Methodology was attended by students and faculty members of School of Allied Health Sciences (SAHS) of Sharda University. He imparted the awareness about Research Methodology. In addition, he enlightened them on how Correct approach and knowledge of research methodology can help in achieving their research goals and provide growth to their professional and personal life. He also emphasized the importance of above mentioned objectives.

**How do I choose the right journal?**

- Aim to reach the intended audience for your work
- Choose only one journal, as simultaneous submissions are prohibited
- Supervisor and colleagues can provide good suggestions
- Shortlist a handful of candidate journals
- Investigate your journal shortlist:
  - Aims & Scope
  - Types of articles considered
  - Readership e.g. academic versus practice
  - Subscription versus Open Access
  - Speed of publication
  - Peer review process (single blind, double blind, open)
  - Bibliometrics
  - Content innovation

One of the criteria may be impact factor but not always
