SECTION B: Event report and reflection

1. Event description

The site visit to Orchha was proposed to familiarize them with the site and its context in the Bundelkhand region. The objective of the related study program was to give students exposure of rich cultural and archaeological heritage of Bundelkhand. The students learned to observe the place architecturally, socially and culturally. They were able to identify and critically evaluate the cultural landscape of Orchha which demonstrate a rich tradition of myths, ballads, literary and folk arts. The students studied the traditional planning and design principles used in building forts and locating temples. The site visit also helped the students to apply the understanding of the tangible and intangible heritage in their design project that showcases the same to the locals as well as the national and international tourist.

Appendix2-EVENT OUTCOME- DESIGN PROBLEM-CENTER FOR FOLKLORE AND ORAL RECITAL ORCHHA

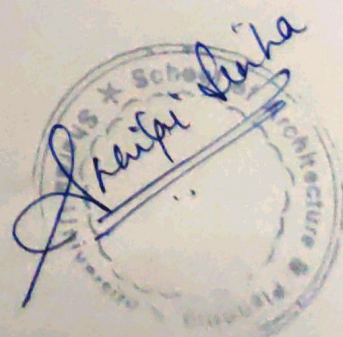

The 3rd semester architectural design exercise involves designing "A centre for folklore and recitals." This centre aims at promoting tourism and culture of Orchha as city of Art and Culture. It enable communities to create great respect for, sustain and benefit from its indigenous arts and crafts, folklore and other aspects of their tangible and intangible heritage. The challenge is setting buildings on the terrain, creating climatically responsive spaces, and designing with the river, which is currently lost.
