SECTION B: Event report and reflection

Event objectives:

- The hackathon aims to discover innovative ideas from young minds for problems of society. As we all know that India has the world's youngest population, the youth are brimming with energy, have novel ideas, and are creative.
- Sharda University is presenting this initiative to engage the youth of the nation starting the morning of January 20 to January 27, 2021, wherever you work, wherever you are in the world – feel free to offset the hours as you like – we invite you to join in the spirit of hackathon by building the idea you've been thinking about and put together a working version to show the world.
- This event is being organized as we feel that innovation is best demonstrated by bringing ideas to life, even if the first version may not be perfect.
- The students will be working on any one of the 5 event themes and will display their solutions. This will be followed by a prize distribution ceremony.
